SUBJECT INDEX, VOLUME 153

(E = editorial)

Abdomen
Hemodynamic basis of the pain of chronic mesenteric ischemia, 171
Herniorrhaphy in the elderly. Benefits of a clinic for the treatment of external abdominal wall hernias, 387
Indications for needle catheter jejunostomy in elective abdominal surgery, 545
Return of the physical examination (E), 568
Selective management of abdominal and thoracic stab wounds with established peritoneal penetration: the eviscerated omentum, 564
Surgical options in the management of large omphaloceles, 449
Abscess
Periareolar abscess in the nonlactating breast: risk of recurrence, 571
Surgery during acute pancreatitis. Observations in 50 patients, 369
Acid reflux
Distinction of lower esophageal sphincter strength from sphincter competence, 91
Adenocarcinoma
Primary malignant tumors of the small bowel. The Hartford Hospital experience, 1969–1983, 350
Adenoma
Technetium-thallium scintiscanning for localization of parathyroid adenomas and hyperplasia. A reappraisal, 479
Villous and tubulovillous adenomas of the colon and rectum. A retrospective review, 1964–1985, 41
Alimentary tract
Contributions of alimentary tract surgery to modern infection control (E), 2
Anal sphincter
Investigations of the anal sphincter before and after restorative proctocolectomy, 469
Anastomotic healing
Effect of supplemental vitamin A on colon anastomotic healing in rats given preoperative irradiation, 153
Anesthesia
Comparison of local, spinal, and general anesthesia for inguinal herniorrhaphy, 560
Drug interactions in surgical patients, 327
Transesophageal Doppler scanning versus thermodilution during general anesthesia. An initial comparison of cardiac output techniques, 490
Angiography
Intraoperative carotid arteriography. A comparison of two techniques, 525
Angioplasty
Transluminal angioplasty versus surgical repair for stenosis of hemodialysis grafts. A randomized study, 530
Antibiotics
Antibiotic prophylaxis of 1,036 patients undergoing elective surgical procedures. A prospective, randomized comparative trial of cefazolin, cefoxitin, and cefotaxime in a prepaid medical practice, 341
Contributions of alimentary tract surgery to modern infection control (E), 2
Antibodies
Vaccines and antibody immunotherapy in surgical patients, 409
Anus
Determinants of stool frequency after ileal pouch-anal anastomosis, 157
Aorta
Clinical spectrum of patients with infrarenal aortic grafts and gastrointestinal bleeding, 459
Late rupture of prosthetic aortic grafts. Presentation and management, 453
Techniques of aortic arch replacement: profound hypothermia versus moderate hypothermia with innominate artery perfusion, 511
Appendectomy
Effect of incidental appendectomy on the development of wound infection in patients undergoing staging laparotomy for Hodgkin's disease, 226
Arteries
A rapid and relatively safer method of sclerosing esophageal varices utilizing a new transparent tube, 317
Arterial insufficiency in hemodialysis access procedures: reconstruction by an interposition polytetrafluoroethylene graft conduit, 300
Early diagnosis and management of renovascular hypertension, 495
Early endothelial coverage of synthetic arterial grafts: porosity revisited, 501
Effect of ligation of variant hepatic arterial structures on the completeness of regional chemotherapy infusion, 378
Intraoperative carotid arteriography. A comparison of two techniques, 525
Late rupture of prosthetic aortic grafts. Presentation and management, 453
Techniques of aortic arch replacement: profound hypothermia versus moderate hypothermia with innominate artery perfusion, 511
Arteriography
Intraoperative carotid arteriography. A comparison of two techniques, 525
Aspirin
Protective effect of exogenous phospholipid on aspirin-induced gastric mucosal injury, 48
Atresia, duodenal
Newborn duodenal atresia: an improving outlook, 347
Atropine
Distinction of lower esophageal sphincter strength from sphincter competence, 91
Autotransplantation
Early diagnosis and management of renovascular hypertension, 495
Intestinalization of pancreatic fragments in dogs: improvement in survival rate after acute segmental pancreatitis, 364
Azathioprine
Infectious complications with the use of cyclosporine versus azathioprine after cadaveric kidney transplantation, 381
Balloons, intragastric
Use of intragastric balloons for weight reduction. An experimental study, 265
Bassini, Edoardo
The centenary of Bassini's contribution to inguinal herniorrhaphy (E), 324
Bile
Agents for gallstone dissolution, 233
Reflux of bile acids, gastritis, and gastric remnant carcinoma (E), 403
Regurgitant bile acids and mucosal injury of the gastric remnant after partial gastrectomy, 399
Bile duct
A biliary endoscopy model, 576
Biliary tract disease. Is there a difference in men? 532
Emergency management of choledochal cysts in adult patients, 434
Endoscopic biliary stents and obstructive jaundice, 444
Primary sclerosing cholangitis, 439
Biliary tract
Biliary tract disease. Is there a difference in men? 532
Bladder
Immediate postoperative jejunostomy feeding. Clinical and metabolic results in a prospective trial, 198
One-stage resection and anastomosis in the management of colovesical fistula, 75
Blood
Angioaccess by reverse brachiocephalic fistula, 574
Arterial insufficiency in hemodialysis access procedures: reconstruction by an interposition polytetrafluoroethylene graft conduit, 300
Transluminal angioplasty versus surgical repair for stenosis of hemodialysis grafts. A randomized study, 530
Blood flow
Effects of nonshunting operations on portal venous pressure and hepatic blood flow, 295
Hemodynamic basis of the pain of chronic mesenteric ischemia, 171
Protection of the small intestine from

nonocclusive mesenteric ischemic injury due to cardiogenic shock, 108
Significance of hepatic hemodynamic changes after operation for portal hypertension (E), 298
The value of a Japanese experience with nonshunt procedures for control of variceal bleeding (E), 298
Transesophageal Doppler scanning versus thermodilution during general anesthesia. An initial comparison of cardiac output techniques, 490

Blood pressure
Early diagnosis and management of renovascular hypertension, 495
Effects of nonshunting operations on portal venous pressure and hepatic blood flow, 295
Hemodynamic basis of the pain of chronic mesenteric ischemia, 171
Protection of the small intestine from nonocclusive mesenteric ischemic injury due to cardiogenic shock, 108
Significance of hepatic hemodynamic changes after operation for portal hypertension (E), 298

Blood transfusion
Bad blood: perspective of a country boy (E), 214

Bombesin
Role of cholecystokinin in canine pancreatic exocrine response to bombesin stimulation, 96

Bones
Viability of intramedullary canal bone reamings for continued calcification, 306

Books
Book reviews, 197, 320, 417
Books received, 151, 336

Breast
Periareolar abscess in the nonlactating breast: risk of recurrence, 571
Prognostic indicators in cystosarcoma phylloides, 276

Calcification
Viability of intramedullary canal bone reamings for continued calcification, 306

Calculi
A biliary endoscopy model, 576
Agents for gallstone dissolution, 233
An animal model of pigment cholelithiasis, 130
Biliary tract disease. Is there a difference in men? 532
Cholelithiasis in the Syrian population. A prospective study of 189 patients, 392
Percutaneous cholecystostomy for acute cholecystitis in high-risk patients, 125
Primary sclerosing cholangitis, 439

Cancer
Diagnostic discriminants of thyroid cancer, 569
Diagnostic imaging techniques in lung carcinoma, 517
Effect of incidental appendectomy on the development of wound infection in patients undergoing staging laparotomy for Hodgkin's disease, 226
Effect of ligation of variant hepatic arterial structures on the completeness of regional chemotherapy infusion, 378
Effect of surgical treatment of stage IV melanoma, 270
Efficacy of differential mucin staining for predicting synchronous and metachronous colorectal carcinomas, 144
Esophageal resection for cancer: the rationale of current practice, 18
Factors affecting the morbidity of elective liver resection, 189
Forecast of surgical risk in pancreatic cancer, 374
Hepatic resection for primary and secondary neoplasms of the liver, 428
Immediate postoperative jejunostomy feeding. Clinical and metabolic results in a prospective trial, 198
Influence of tumor cell DNA ploidy on the natural history of rectal cancer, 184
Modified radical neck dissection. Terminology, technique, and indications, 310
Mucosal field change in colorectal cancer, 281, 283
Nontraumatic perforation of the small bowel, 355
One-stage resection and anastomosis in the management of colovesical fistula, 75
Primary malignant tumors of the small bowel. The Hartford Hospital experience, 1969–1983, 350
Primary sclerosing cholangitis, 439
Prognostic indicators in cystosarcoma phylloides, 276
Rebuttal (E), 284
Reflux of bile acids, gastritis, and gastric remnant carcinoma (E), 403
Regurgitant bile acids and mucosal injury of the gastric remnant after partial gastrectomy, 399
Vascular access options for outpatient cancer therapy, 487
Villous and tubulovillous adenomas of the colon and rectum. A retrospective review, 1964–1985, 41

Cancer staging
Investigations of factors influencing the prognosis of colon cancer, 541

Carcinoid tumors
Primary malignant tumors of the small bowel. The Hartford Hospital experience, 1969–1983, 350

Carcinoma
Diagnostic imaging techniques in lung carcinoma, 517
Esophageal resection for cancer: the rationale of current practice, 18

Cardiac output
Transesophageal Doppler scanning versus thermodilution during general anesthesia. An initial comparison of cardiac output techniques, 490

Catheterization
Early total parenteral nutrition in acute pancreatitis: lack of beneficial effects, 117
Indications for needle catheter jejunostomy in elective abdominal surgery, 545
Intraoperative carotid arteriography. A comparison of two techniques, 525
Safe jugular and subclavian venipuncture under ultrasonographic guidance, 321
Vascular access options for outpatient cancer therapy, 487

Cefazolin
Antibiotic prophylaxis of 1,036 patients undergoing elective surgical procedures. A prospective, randomized comparative trial of cefazolin, cefoxitin, and cefotaxime in a prepaid medical practice, 341

Cefotaxime
Antibiotic prophylaxis of 1,036 patients undergoing elective surgical procedures. A prospective, randomized comparative trial of cefazolin, cefoxitin, and cefotaxime in a prepaid medical practice, 341

Cefoxitin
Antibiotic prophylaxis of 1,036 patients undergoing elective surgical procedures. A prospective, randomized comparative trial of cefazolin, cefoxitin, and cefotaxime in a prepaid medical practice, 341

Cephalosporins
Antibiotic prophylaxis of 1,036 patients undergoing elective surgical procedures. A prospective, randomized comparative trial of cefazolin, cefoxitin, and cefotaxime in a prepaid medical practice, 341

Chemotherapy
Contributions of alimentary tract surgery to modern infection control (E), 2
Effect of ligation of variant hepatic arterial structures on the completeness of regional chemotherapy infusion, 378

Chenodeoxycholate
Agents for gallstone dissolution, 233

Chest
Return of the physical examination (E), 568
Selective management of abdominal and thoracic stab wounds with established peritoneal penetration: the eviscerated omentum, 564

Children
Complications and reoperation after Nissen fundoplication in childhood, 177
Early diagnosis and management of renovascular hypertension, 495
Surgical options in the management of large omphaloceles, 449

Cholangitis
Biliary tract disease. Is there a difference in men? 532
Emergency management of choledochal cysts in adult patients, 434
Primary sclerosing cholangitis, 439

Cholecystectomy
Biliary tract disease. Is there a difference in men? 532
Closed-suction versus penrose drainage after cholecystectomy. A prospective, randomized evaluation, 394

Cholecystitis
Biliary tract disease. Is there a difference in men? 532
Percutaneous cholecystostomy for acute cholecystitis in high-risk patients, 125

Cholecystokinin
Role of cholecystokinin in canine pancreatic exocrine response to bombesin stimulation, 96

Cholecystostomy
Percutaneous cholecystostomy for acute cholecystitis in high-risk patients, 125

Choledochoscopy
A biliary endoscopy model, 576

Cholelithiasis
An animal model of pigment cholelithiasis, 130

Cholelithiasis in the Syrian population. A prospective study of 189 patients, 392
Cholesterol
Agents for gallstone dissolution, 233
An animal model of pigment cholelithiasis, 130
Circulatory arrest
Techniques of aortic arch replacement: profound hypothermia versus moderate hypothermia with innominate artery perfusion, 511
Cirrhosis
Effects of shunted portal hemodynamics after distal splenorenal shunts, 80
Effects of nonshunting operations on portal venous pressure and hepatic blood flow, 295
Primary sclerosing cholangitis, 439
Significance of hepatic hemodynamic changes after operation for portal hypertension (E), 298
The value of a Japanese experience with nonshunt procedures for control of variceal bleeding (E), 298
Colitis, ulcerative
Complications of loop ileostomy, 102
Determinants of stool frequency after ileal pouch-anal anastomosis, 157
Colon
An ideal operation for diverticulitis of the colon, 285
Complications and reoperation after Nissen fundoplication in childhood, 177
Effect of supplemental vitamin A on colon anastomotic healing in rats given preoperative irradiation, 153
Efficacy of differential mucin staining for predicting synchronous and metachronous colorectal carcinomas, 144
Implications of emergency operations on the colon, 535
Investigations of factors influencing the prognosis of colon cancer, 541
Investigations of the anal sphincter before and after restorative proctocolectomy, 469
Mucosal field change in colorectal cancer, 281, 283
One-stage resection and anastomosis in the management of colovesical fistula, 75
Rebuttal (E), 284
Villous and tubulovillous adenomas of the colon and rectum. A retrospective review, 1964–1985, 41
Colostomy
An ideal operation for diverticulitis of the colon, 285
Implications of emergency operations on the colon, 535
Computerized axial tomography
Diagnostic imaging techniques in lung carcinoma, 517
Congenital abnormalities
Newborn duodenal atresia: an improving outlook, 347
Pancreas divisum: is it a normal anatomic variant? 62
Surgical options in the management of large omphaloceles, 449
Congo red test
Endoscopic Congo red test during proximal gastric vagotomy, 249
Continuing medical education
CME test, 149
Crohn's disease
Nontraumatic perforation of the small bowel, 355
Cyclosporine
Clinical orthotopic cardiac transplantation, 582
Infectious complications with the use of cyclosporine versus azathioprine after cadaveric kidney transplantation, 381
Cystosarcoma phylloides
Prognostic indicators in cystosarcoma phylloides, 276
Cysts, choledochal
Emergency management of choledochal cysts in adult patients, 434
Diabetes
Infectious complications with the use of cyclosporine versus azathioprine after cadaveric kidney transplantation, 381
Diagnosis-related groups (DRGs)
Clinical research in the era of cost containment (E), 337
Who will decide? (E), 420
Diverticulitis
An ideal operation for diverticulitis of the colon, 285
One-stage resection and anastomosis in the management of colovesical fistula, 75
DNA
Influence of tumor cell DNA ploidy on the natural history of rectal cancer, 184
Doppler scanning
Transesophageal Doppler scanning versus thermodilution during general anesthesia. An initial comparison of cardiac output techniques, 490
Drainage
Closed-suction versus penrose drainage after cholecystectomy. A prospective, randomized evaluation, 394
Endoscopic biliary stents and obstructive jaundice, 444
Drug interactions
Drug interactions in surgical patients, 327
Duct stricture
Unilateral hepatic duct obstruction, 86
Duodenum
A biliary endoscopy model, 576
Endoscopic Congo red test during proximal gastric vagotomy, 249
Gastrin and partial gastrectomy in duodenal ulcer patients 25 years postoperatively, 262
Is an antireflux procedure necessary in conjunction with parietal cell vagotomy in the absence of preoperative reflux? 215
Newborn duodenal atresia: an improving outlook, 347
The history of vagotomy, 9
Echocardiography
Transesophageal Doppler scanning versus thermodilution during general anesthesia. An initial comparison of cardiac output techniques, 490
Economics
Antibiotic prophylaxis of 1,036 patients undergoing elective surgical procedures. A prospective, randomized comparative trial of cefazolin, cefoxitin, and cefotaxime in a prepaid medical practice, 341
Clinical research in the era of cost containment (E), 337
Who will decide? (E), 420

Protective effect of glucan-enhanced macrophage function in experimental pancreatitis, 25
Surgery during acute pancreatitis. Observations in 50 patients, 369
Parathyroid glands
Technetium-thallium scintiscanning for localization of parathyroid adenomas and hyperplasia. A reappraisal, 479
Parenteral nutrition
Early total parenteral nutrition in acute pancreatitis: lack of beneficial effects, 117
Pelvic pouch
Complications of loop ileostomy, 102
Perfluorocarbons
Treatment of intestinal ischemia with oxygenated intraluminal perfluorocarbons, 291
Perforation, intestinal
Nontraumatic perforation of the small bowel, 355
Perfusion
Techniques of aortic arch replacement: profound hypothermia versus moderate hypothermia with innominate artery perfusion, 511
Peritoneum
Return of the physical examination (E), 568
Selective management of abdominal and thoracic stab wounds with established peritoneal penetration: the eviscerated omentum, 564
Pharmacokinetic interactions
Drug interactions in surgical patients, 327
Phospholipids
Lung injury in acute pancreatitis: primary inhibition of pulmonary phospholipid synthesis, 54
Protective effect of exogenous phospholipid on aspirin-induced gastric mucosal injury, 48
Ploidy, DNA
Influence of tumor cell DNA ploidy on the natural history of rectal cancer, 184
Pneumococcal infection
Vaccines and antibody immunotherapy in surgical patients, 409
Polyposis, familial
Complications of loop ileostomy, 102
Polysaccharides
Protective effect of glucan-enhanced macrophage function in experimental pancreatitis, 25
Proctocolectomy
Implications of emergency operations on the colon, 535
Investigations of the anal sphincter before and after restorative proctocolectomy, 469
Proglumide
Role of cholecystokinin in canine pancreatic exocrine response to bombesin stimulation, 96
Prostaglandin E_2
Increased ex vivo synthesis of prostaglandin E_2 by gastric tissue after hemorrhage in rats, 139
Pulse volume recorder
Postoperative deep vein thrombosis (E), 305
Postoperative deep vein thrombosis in the Taiwanese Chinese population, 302
Rabies
Vaccines and antibody immunotherapy in surgical patients, 409
Radiography
Cervical spine films, cost, and algorithms (E), 478
Clinical indications for cervical spine radiographs in the traumatized patient, 473
Diagnostic imaging techniques in lung carcinoma, 517
Intraoperative carotid arteriography. A comparison of two techniques, 525
Radiotherapy
Effect of supplemental vitamin A on colon anastomotic healing in rats given preoperative irradiation, 153
Rectum
Efficacy of differential mucin staining for predicting synchronous and metachronous colorectal carcinomas, 144
Influence of tumor cell DNA ploidy on the natural history of rectal cancer, 184
Investigations of factors influencing the prognosis of colon cancer, 541
Investigations of the anal sphincter before and after restorative proctocolectomy, 469
Mucosal field change in colorectal cancer, 281, 283
Rebuttal (E), 284
Villous and tubulovillous adenomas of the colon and rectum. A retrospective review, 1964–1985, 41

Reflux, fecal
Role of enteric plexuses in the competency of telescoped intestinal valves, 359
Renin-angiotensin axis
Protection of the small intestine from nonocclusive mesenteric ischemic injury due to cardiogenic shock, 108
Residency, surgical
The journey of the resident in surgery (E), 579
Respiratory insufficiency
Lung injury in acute pancreatitis: primary inhibition of pulmonary phospholipid synthesis, 54
Reviews
Clinical orthotopic cardiac transplantation, 582
Vaccines and antibody immunotherapy in surgical patients, 409
Sarcoma
Prognostic indicators in cystosarcoma phyiloides, 276
Scintiscanning
Diagnostic discriminants of thyroid cancer, 569
Technetium-thallium scintiscanning for localization of parathyroid adenomas and hyperplasia. A reappraisal, 479
Sclerosis
Percutaneous cholecystostomy for acute cholecystitis in high-risk patients, 125
Sclerotherapy
A rapid and relatively safer method of sclerosing esophageal varices utilizing a new transparent tube, 317
Sepsis
Early total parenteral nutrition in acute pancreatitis: lack of beneficial effects, 117
Shock
Increased ex vivo synthesis of prostaglandin E_2 by gastric tissue after hemorrhage in rats, 139
Intestinalization of pancreatic fragments in dogs: improvement in survival rate after acute segmental pancreatitis, 364
Protection of the small intestine from nonocclusive mesenteric ischemic injury due to cardiogenic shock, 108
Shunts
Effects of altered portal hemodynamics after distal splenorenal shunts, 80
Sialomucin
Mucosal field change in colorectal cancer, 281, 283
Rebuttal (E), 284
Silver sulfadiazene
Surgical options in the management of large omphaloceles, 449
Skin
Effect of surgical treatment of stage IV melanoma, 270
Sphincter strength
Distinction of lower esophageal sphincter strength from sphincter competence, 91
Spincteroplasty
Misplaced pancreatic duct orifice as a cause of recurrent acute pancreatitis, 165
Spine
Cervical spine films, cost, and algorithms (E), 478
Clinical indications for cervical spine radiographs in the traumatized patient, 473
Spleen
Nonoperative observation therapy for splenic injuries: a safe therapeutic option? 462
Steal syndrome, mesenteric
Hemodynamic basis of the pain of chronic mesenteric ischemia, 171
Stenosis
Early diagnosis and management of renovascular hypertension, 495
Transluminal angioplasty versus surgical repair for stenosis of hemodialysis grafts. A randomized study, 530
Stents
Endoscopic biliary stents and obstructive jaundice, 444
Stomach
Clinical spectrum of patients with infrarenal aortic grafts and gastrointestinal bleeding, 459
Critical appraisal of horizontal gastroplasty, 256
Endoscopic Congo red test during proximal gastric vagotomy, 249
Gastrin and partial gastrectomy in duodenal ulcer patients 25 years postoperatively, 262
Increased ex vivo synthesis of prostaglandin E_2 by gastric tissue after hemorrhage in rats, 139
Indications for needle catheter jejunostomy in elective abdominal surgery, 545
New method of percutaneous gastrostomy using anchoring devices, 230
Protective effect of exogenous phospholipid on aspirin-induced gastric mucosal injury, 48
Reflux of bile acids, gastritis, and gastric remnant carcinoma (E), 403
Regurgitant bile acids and mucosal injury of the gastric remnant after partial gastrectomy, 399
Use of intragastric balloons for weight reduction. An experimental study, 265
Stool frequency
Determinants of stool frequency after ileal pouch-anal anastomosis, 157
Surgical pharmacology
Agents for gallstone dissolution, 233
Drug interactions in surgical patients, 327
Technetium
Technetium-thallium scintiscanning for localization of parathyroid adenomas and hyperplasia. A reappraisal, 479
Techniques
A biliary endoscopy model, 576
Angioaccess by reverse brachiocephalic fistula, 574
A rapid and relatively safer method of sclerosing esophageal varices utilizing a new transparent tube, 317
Modified radical neck dissection. Terminology, technique, and indications, 310
New method of percutaneous gastrostomy using anchoring devices, 230
Safe jugular and subclavian venipuncture under ultrasonographic guidance, 321
Salvage of upper arm access grafts by extension to the infraclavicular axillary vein, 407
Technique of simultaneous renal pancreatoduodenal transplantation with urinary drainage of pancreatic secretion, 405
Tetanus
Vaccines and antibody immunotherapy in surgical patients, 409
Thallium
Technetium-thallium scintiscanning for localization of parathyroid adenomas and hyperplasia. A reappraisal, 479
Thermodilution
Transesophageal Doppler scanning versus thermodilution during general anesthesia. An initial comparison of cardiac output techniques, 490
Thorax
Return of the physical examination (E), 568
Selective management of abdominal and thoracic stab wounds with established peritoneal penetration: the eviscerated omentum, 564
Thrombosis
Postoperative deep vein thrombosis (E), 305
Postoperative deep vein thrombosis in the Taiwanese Chinese population, 302
Thyroid gland
Diagnostic discriminants of thyroid cancer, 569
Tonometry
Hemodynamic basis of the pain of chronic mesenteric ischemia, 171
Transplantation
A possible serum marker for rejection after small intestine transplantation, 68
Clinical orthotopic cardiac transplantation, 582
Infectious complications with the use of cyclosporine versus azathioprine after cadaveric kidney transplantation, 381
Intestinalization of pancreatic fragments in dogs: improvement in survival rate after acute segmental pancreatitis, 364
Technique of simultaneous renal pancreatoduodenal transplantation with urinary drainage of pancreatic secretion, 405
Trauma
Cervical spine films, cost, and algorithms (E), 478
Clinical indications for cervical spine radiographs in the traumatized patient, 473
Nonoperative observation therapy for splenic injuries: a safe therapeutic option? 462
Return of the physical examination (E), 568
Selective management of abdominal and thoracic stab wounds with established peritoneal penetration: the eviscerated omentum, 564
Ulcers
Endoscopic Congo red test during proximal gastric vagotomy, 249
Gastrin and partial gastrectomy in duodenal ulcer patients 25 years postoperatively, 262
Increased ex vivo synthesis of prostaglandin E_2 by gastric tissue after hemorrhage in rats, 139
Is an antireflux procedure necessary in conjunction with parietal cell vagotomy in the absence of preoperative reflux? 215
The history of vagotomy, 9
Use of intragastric balloons for weight reduction. An experimental study, 265

Ultrasonography
Diagnostic discriminants of thyroid cancer, 569
Extended applications of ultrasonography by the surgeon. A preliminary report, 221
Safe jugular and subclavian venipuncture under ultrasonographic guidance, 321
Transesophageal Doppler scanning versus thermodilution during general anesthesia. An initial comparison of cardiac output techniques, 490

Upper extremities
Salvage of upper arm access grafts by extension to the infraclavicular axillary vein, 407

Ursodeoxycholate
Agents for gallstone dissolution, 233

Vagotomy
Endoscopic Congo red test during proximal gastric vagotomy, 249
Is an antireflux procedure necessary in conjunction with parietal cell vagotomy in the absence of preoperative reflux? 215
The history of vagotomy, 9

Valves, telescoped intestinal
Role of enteric plexuses in the competency of telescoped intestinal valves, 359

Vascular access
Angioaccess by reverse brachiocephalic fistula, 574
Arterial insufficiency in hemodialysis access procedures: reconstruction by an interposition polytetrafluoroethylene graft conduit, 300
Safe jugular and subclavian venipuncture under ultrasonographic guidance, 321
Salvage of upper arm access grafts by extension to the infraclavicular axillary vein, 407
Vascular access options for outpatient cancer therapy, 487

Vasoconstriction
Protection of the small intestine from nonocclusive mesenteric ischemic injury due to cardiogenic shock, 108

Veins
A rapid and relatively safer method of sclerosing esophageal varices utilizing a new transparent tube, 317
Angioaccess by reverse brachiocephalic fistula, 574
Autogenous reversed vein bypass for lower extremity ischemia in patients with absent or inadequate greater saphenous vein, 505
Early diagnosis and management of renovascular hypertension, 495
Effects of altered portal hemodynamics after distal splenorenal shunts, 80
Effects of nonshunting operations on portal venous pressure and hepatic blood flow, 295
Postoperative deep vein thrombosis (E), 305
Postoperative deep vein thrombosis in the Taiwanese Chinese population, 302
Safe jugular and subclavian venipuncture under ultrasonographic guidance, 321
Salvage of upper arm access grafts by extension to the infraclavicular axillary vein, 407
Significance of hepatic hemodynamic changes after operation for portal hypertension (E), 298
The value of a Japanese experience with nonshunt procedures for control of variceal bleeding (E), 298

Venipuncture
Safe jugular and subclavian venipuncture under ultrasonographic guidance, 321

Vitamin A
Effect of supplemental vitamin A on colon anastomotic healing in rats given preoperative irradiation, 153

Warfarin
Drug interactions in surgical patients, 327

Whipple procedure
Indications for needle catheter jejunostomy in elective abdominal surgery, 545
